MEET SKIVOLO'S FAMILY

This is Skivolo's family—his mommy, Patrino; his daddy, Patro; and his sister, Jenu.
Can you draw a picture of your family?

SAY CHEESE!

Having a family who loves and cares about you is special. A picture of your family can keep them close to you, no matter where they are.

Decorate this photo frame and use it to hold a picture of you and your family.

Meet Skivolo's doctor and nurse who are trying to help him get better. Add color to make it fun.

This is Dr Kono and Nurse Felicia. Dr Kono is smart and knows a lot. When I feel sad, Nurse Felicia always cheers me up by making funny faces.

Can you draw a picture of your doctor and nurse?

WHAT MAKES YOU HAPPY?

His orange ball, playing catch with Jenu, and bamboo are a few of the things that make Skivolo happy. Draw what makes you happy below.

This is my hospital room. Can you draw in some of the fun things that are in your hospital room?

DID YOU KNOW...

You're not alone. Over 35 million people need to go to the hospital each year.

Your body is made up of billions of teeny tiny pieces called **cells**. When these healthy cells grow, they make more little cells. But sometimes, the cells make mistakes and create bad cells called cancer cells.

When there are enough cancer cells inside your body, they make lumps in your tummy or your back. Some lumps and bumps in your body are ok. But the ones caused by cancer can hurt and make you sick.

Do you know what cancer is? My dad explained it to me.

FIND THE CANCER CELL

Cancer cells can make you sick. Use the clues below to help find which cell is the cancer cell.

Clue 1:
The cancer cell isn't holding a magnifying glass.

Clue 2:
The cancer cell isn't wearing glasses.

Clue 3:
The cancer cell isn't wearing a hat.

Clue 4:
The cancer cell doesn't have a mustache.

The hospital sure is big and has lots of different rooms. Can you help me find my way back to my room?

START

FINISH!

WHAT'S DIFFERENT?

Here are 2 pictures of the chemotherapy room. You may think they look exactly the same, but look again. See if you can spot and circle the 7 differences.

When I'm getting chemotherapy, I sometimes get bored. I usually play Tic Tac Toe with Jenu, my sister. Now you can play with a friend!

Instructions: The object of Tic Tac Toe is to get 3 of the same symbols in a row. The first player is known as X, and the second is O. Players take turns placing Xs and Os on the game board until either player has 3 in a row or all 9 squares are filled.

FIND THE HIDDEN OBJECTS

Here is Koala getting a stem-cell transplant. Can you find the following hidden objects in the picture?

- Flower
- Test tube
- Bell
- Shovel
- Sailboat
- Ice cream cone

DID YOU KNOW...

Stem cells give you 2 million new red blood cells every second!

CONNECT THE DOTS

This is where Skivolo will get antibody therapy, which uses the body's immune system to help get rid of cancer cells. Can you connect the dots to complete the picture?

SEND A THANK-YOU!

There are so many people who help you get better. Let's make a card to say thank you. Ask a grown-up to photocopy this page if you want to make even more cards!

ALPHABET GAME

Write 1 word next to each letter of the alphabet.
For example: A=apple, B=bottle, C=cat, etc

<p>Dear _____,</p> <p>Thank you for _____</p> <p>Love,</p> <p>_____</p> 	<p>Dear _____,</p> <p>Thank you for _____</p> <p>Love,</p> <p>_____</p>

DECORATE A MASK...

Dr Kono and Nurse Felicia washed their masks, and the colors came off!
Can you give them new colors?

...OR COLOR YOUR OWN!

Ask your nurse for a hospital mask that you can also decorate with crayons or markers!

MAKE YOUR OWN SKIVOLO MASK!

You'll need a paper plate, straw, scissors, and some crayons or markers.
Don't forget to decorate it with colors or stickers! You can find stickers in the back of this activity book.

1. Cut off the bottom of a paper plate.

2. Cut out holes for your eyes. Glue your cut-outs to the top of the plate. These are now your ears!

3. Use markers or crayons to draw in eyebrows, cheeks, nose, and whiskers.

4. Attach a wooden stick or straw to the bottom of the plate and PRESTO, your own Skivolo mask!

LETTERS OF LOVE

When I'm recovering from my treatments, my family writes me letters to make me feel better. Ask someone special to write you a letter or draw a picture for you.

WORD MAKER

Dr Kono always uses big words. They can be hard to say, but it helps if you sound them out. Like **radiation treatment** or **antibody therapy**. How many words can you make from the ones listed below?

RADIATION TREATMENT

Two columns of horizontal lines for writing words derived from 'RADIATION TREATMENT'.

ANTIBODY THERAPY

Two columns of horizontal lines for writing words derived from 'ANTIBODY THERAPY'.

When I'm in my hospital room, I like to play games with my sister Jenu or my Mommy or Daddy. Here are some games you can play with someone in your family.

STRING GAME

Cut a piece of string (it can be as long or as short as you want). Then make a trail by wrapping it around the room by going under tables, over the bed, through a chair, and anywhere else you want. Then have someone in your family follow the string trail from one end to the other for an adventure.

10 QUESTIONS

Pick any object in the room. It could be the TV, a pillow, or anything else in sight. Then have someone in your family try to guess what it is by asking yes or no questions. See if they can guess what it is in 10 questions or less.
